

POLE45 Office poles

Quality in Focus

POLE45 Product family

POLE45 Office pole product family is a quick and cost-efficient solution for building electrical, telecom and computer networks.

YOUR OFFICE SOLUTION

SAFETY - The Office poles are supplied fully furnished with cables and individually tested. Separate power-outlet for data hardware.

FLEXIBLE - Possible to add DUCTEL Avec 45 outlets and other 45 mm accessories afterwards.

EFFORTLESS - Easy installation according to end-user requirements.

INDIVIDUAL - PIPE and POST can be fitted on site according to end-user demand.

COST-EFFICIENT - Compact solutions with time-saving installation.

DESIGN - The specially designed surface bends the light and blends the pole into the surroundings. Due to the 45 mm fittings, POLE45 is a slim, streamlined and stylish solution.

POLE45 fitting equipment

POLE45 is fitted with DUCTEL Avec 45 mm outlets and AMP data outlets.

Lead trough collar and Bracket available for fastening of flexible tube.

The heavy floor bracket guarantees a firm installation. POLE45 can be fixed in the middle or on one side of the floor bracket.

With PSK2 wall bracket it is possible to install POLE451 and PIPE45 to the wall or other flat surfaces.
